GXO Logistics   2019 - 2022

EVENT'S MANAGER & SALES COORDINATOR
Thrill Pic Media   2017 - 2019

WAREHOUSE & WEBSITE MANAGER
Get Wivvit Clothing   2014 - 2017

PROFILE

Passionate full-stack developer with a deep love for front-end development. I specialize in crafting immersive and user-friendly web experiences using the power of JavaScript. Whether it's building responsive interfaces, optimizing user interactions, or breathing life into web applications, I thrive on the art of front-end development.

EXPERIENCE TECH

SOFTWARE ENGINEER & MENTOR

Northcoders   2022 - Present

Software Engineer

- Developed and maintained web applications using JavaScript, React, Node.js, and more.
- Collaborated with cross-functional teams to define project requirements and scope.
- Participated in the full software development lifecycle, from requirement analysis to deployment.
- Implemented best practices in software engineering, including version control, code reviews, and automated testing.
- Utilized agile methodologies to prioritize tasks and deliver features efficiently.
- Worked with databases (e.g., PostgreSQL) to design and optimize data models.
- Employed responsive web design principles and CSS frameworks for user-friendly interfaces.
- Demonstrated problem-solving skills by identifying and resolving technical challenges.
- Kept up-to-date with industry trends and emerging technologies through continuous learning.
- Contributed to Northcoders' learning environment and coding challenges.

Mentor

- Provided guidance and support to junior developers, fostering their growth.
- Conducted one-on-one mentoring sessions to address individual learning needs.
- Offered code reviews and feedback to enhance the quality of students' work.
- Facilitated interactive coding sessions and group discussions for collaborative learning.
- Assisted students in refining their problem-solving and debugging techniques.
- Shared industry insights and real-world experiences to prepare students for their careers.
- Empowered students to become proficient software engineers through mentorship.
- Created a supportive and inclusive learning environment for students as a positive mentor.
- Adapted mentoring techniques to meet the unique needs and learning styles of each mentee.
- Collaborated with fellow mentors and instructors to enhance the mentoring program's effectiveness.
- Contributed to the development of curriculum and coding challenges to ensure up-to-date content.
